

Part 1: Model Answer

What do you like about the city that you currently live in?

Good question. I guess what I like most is that there is so much **greenery** in the city. There are **numerous** large parks dotted around Edinburgh, and there's even a large **hill** in the centre called Arthur's Seat. I've been to a lot of different cities, but I've never been to one with as many open green areas as Edinburgh.
